

You Are Invited

Please join us in whatever way feels correct to you. Please help us care for the resident teachers and healers and build the facilities that will become the basis for what HDLM can be. It is a huge undertaking, and if we all do our part, it will become a center for re-connecting humans to the rest of creation, taking our rightful place as part of all that is.

Thank you for what you do. Donations may be by check or money order, or via PayPal on our website,

<http://www.hdlmsanctuary.org>

Monthly donations are encouraged. No gift is too large or too small.

Please ask us about sponsoring a resident. And, we may still have sanctuary residents who are waiting to go to their new homes. If you have room in your heart for even one of our special beings, please contact Wynne Zaugg, and he will arrange for you to meet your new best friend.

HACIENDA DE LOS MILAGROS (Home of Miracles)

A Teaching and Healing Sanctuary

We want you to come visit us...

We want to talk to you...

We want to work with you...

We want to support you...

We want to love on you...

We will never forget you!

History

HDLM was originally founded as a retirement home for horses in need in 1990 in Glendale, AZ by W. Wynne Zaugg and Barbara Metzger. The first horses were boarded, and we were there three times a day, 7 days a week taking care of them. In 1993, we moved to our current location with more room than we thought we'd ever use. The first burro arrived in 1995, then the first eight (8) burros we took that had been removed by the Parks Service in Death Valley arrived in 1996, and we soon found out how we'd use the 'extra' space!

By 2008/2009, HDLM had become lifetime home for 39 horses, 139 burros, 4 mules, 3 ponies, 2 hinnies, 2 mini horses, 2 llamas, 12 rabbits, 4 dogs, and some 10-15 cats most of whom are feral.

In 2009, events happened that changed the direction of HDLM: the economy, and the desire of many of the residents to go forth into the world of humans to teach, heal and spread their unconditional love. These incredible beings, who had come to us fearful and in need of considerable healing, were now ready to go into the world and spread what they found here.

Executive Director Wynne Zaugg says *"My family is going on to their greater mission, and I am very proud of them. Some of them I will not see again in this lifetime, and yet the connection will never be severed. We've been together before, and will again. The circle goes on and on."*

Our New Mission

We are in the process of transitioning from a lifetime sanctuary to a center for teaching and healing for both animals and humans.

A smaller number of animal residents will remain and form the core group of teachers who will continue to touch lives with their healing presence and wisdom. We will offer courses, seminars and workshops in telepathic communication, alternative therapies, touch and energy work for healing, how to read your equine's body to see what they need to feel good, and how to learn what your farrier should be doing.

We will also offer animal assisted therapy in partnership with other groups, using our residents and facilities. Our animal teachers will share with all what has helped them to heal. HDLM will now be sharing the healing work done here to facilitate and strengthen the human-non-human connection, for we are all connected, none lower or higher than another, all equal, and ultimately live as**WE ARE ONE WITH ALL LIFE.**

Our Expanded Vision

HDLM's plans for the future include our resident faculty of teachers and healers in an expanded educational outreach, extended care facilities and hospice for people who do not wish to leave their best friends behind during their extended stay for medical treatments and their final segment of this lifetime, places to stay for people who wish to do their own healing with the animal residents, a village for humans of all ages to live and a school where human students will get top-level state mandated courses, spend time with the animal residents, and be exposed to practitioners of all the major spiritual systems in the world, so they will understand and treat with respect all these various cultures while choosing their own beliefs for themselves. We believe this is essential for true world peace. Students will re-learn telepathic communication with all life, an ability we are all born with, but soon lose as we take our adult places in the world.

Timing of the steps to implement the full plans will depend, of course, on generosity of humans and business and foundations who share this Vision. This Vision has been communicated to us by the sanctuary residents themselves as an important way to heal the earth and all beings upon it.

WE ARE ONE WITH ALL LIFE.
